

# Movie Rating Analysis for RSVP Movies

RSVP Movies is evaluating the potential genres for their next film, focusing on **Drama**, **Comedy**, and **Thriller**. Analysis of the past three years reveals **Drama** as the most produced genre, followed by **Comedy** and **Thriller**. Notably, 3289 movies are exclusively associated with a single genre.

**Drama** films, particularly those produced in **2019**, have an average duration of 106.77 minutes. Thrillers remain among the top three genres by movie count. Upon reviewing the ratings table, it was discovered that the median rating for most movies is **7**, with the **National Theatre Live** production house leading in the number of hit movies, averaging ratings above **8**.

In terms of audience engagement, German movies accumulated around **79,000** votes from **110** films, while Italian movies, despite being only slightly more in number, received approximately **100,000** votes. For directing in the top three genres, **James Mangold** is suggested as the best choice for RSVP's upcoming project.

The analysis identifies **Mammootty** and **Mohanlal** as the top two actors, with 8 and 5 movies respectively. **Marvel Studios**, **Twentieth Century Fox**, and **Warner Bros.** emerged as the leading production houses based on the number of votes received for their films. To resonate with the local audience in Mumbai, RSVP Movies plans to include Indian actors such as **Vijay Sethupathi** and **Shraddha Srinath**, with the latter holding an impressive average rating of 8.48. **Steven Soderbergh** is recommended as a director due to his consistent movie ratings, ranging from 6.2 to 7.0.

These insights provide RSVP Movies with a comprehensive understanding of current trends, audience preferences, and top performers, enabling them to make informed decisions for their next project.
